Dear Bureau of Indian Affairs

I want the the Chinook, Duwamish and Snohomish Nations to be federally recognized by the United States. It is a travesty that the US has not honored treaties signed in good faith. These people have honored and meet their portion of the treaties. As a veteran who has served for over 13 years and 2 combat tours in Iraq for this great nation. I want to compel my government to do the right and just thing and federally recognize these First Nations people.

—

Thank You

Chad W Denton
